**The Friends of the McKenzie River Trail is a group of people who want to help encourage responsible use of the nature around us. We believe that the best way to help preserve nature is to get people to experience the best parts of it.**

Our goals are to help communicate information about the McKenzie River Trail. We will coordinate print and web media to advocate for the preservation and proper upkeep of this national gem.

Additionally, we will help acquire information kiosks (sign boards) and act as a communication hub for the trail.

**Anyone can be a part of this group - if you love the McKenzie River Trail and want to be a part of its preservation and use to help encourage good stewardship of our natural resources - please mail us.**
